---

*"The S&P team had the expertise to make each of our implementations successful for all of our groups. I continually advise other CIOs and professional industry affiliates to utilize S&P's services."*

***Edward Martinez, Chief Information Officer  
H. Lee Moffitt Cancer Center and Research Institute***

*"We have used S&P for our initial validation on 7.8 code and then for our upgrade to 2005... We are just now kicking off our upgrade to 2007 and are going to use [S&P] again. Their documentation is wonderful and [they] found issues that I would never have found. You won't be disappointed with S&P."*
